

ONE+ Shear Shrubbyer & ONE+ Weed Sprayer

Ryobi has added an **18V cordless shear & shrubbyer** and an **18V cordless weed sprayer** to the ONE+ range with both designed to offer home gardeners greater convenience and freedom.

Maintaining all your garden areas just got easier thanks to Ryobi's new and innovative combination of garden tools. The duo are designed to offer users greater versatility, convenience and optimised performance no matter where you're working or what you're working on.

Gardeners managing overgrowing plants or protecting lawns or yard areas from weeds will particularly enjoy the effortless nature of both products.

The ONE+ shrubbyer and weed sprayer are also the latest addition to the ONE+ System – where one battery powers over 50 garden and power tools. So after you are finished mowing your lawn you can take your Lithium+ battery to power a drill and build yourself a shed or plug it into a leaf blower to tidy up your garden.

ONE+ has been powering a range of garden and power tools since 1996, that's 20 years of ONE+ innovation in one system of tools. That's why the ONE+ system is the #1 cordless system in the DIY market world-wide for millions of DIY'ers, families and homeowners.

OGS1822

The OGS1822 shear and shrubber is compact, slim, light and features an over-mould handle that further enhances user comfort. Weighing just 1.2kg without the battery pack, users will be able to work for longer in greater comfort. Moreover, a quick connect system enables users to switch blade types quickly and easily, leaving you more time to manicure your hedges.

The shrubber blade measures 20cm, and the shearing blade 12cm. Both are durable hardened to ensure an excellent cutting capacity of 10mm to ensure all of your pruning and shrubbing needs are met.

OWS1880

The OWS1880 weed sprayer pressurises at the touch of a button, removing the traditional fatigue associated with the manual pumping used to pressurise earlier or rival models.

This tool also features a lock-on button for constant spraying without strain. It can be operated with using one hand thanks to an integrated lance design, all the while ensuring a thorough and even coverage. And with a 3.5L tank with built-in measuring cup, you'll be able to work for longer while keeping an eye on your weed control formulas. Simply click and go.

Powered by ONE+

Both products will enhance your family of power tools. Some users will have found previous electric models prohibitive in bigger gardens or hard-to-reach areas because of the need for frequent charging, or petrol versions too cumbersome, noisy or heavy.

Not anymore.

Moreover, both models integrate seamlessly with your existing tools thanks to the Ryobi ONE+ system, powered by Lithium+ batteries.

The latest in an expanding cordless range, these innovative batteries deliver a petrol-equivalent performance across all your garden tools and can be used alongside more than 50 tools, eradicating the need for purchasing additional accessories.

Our tools are built to last and come at a competitive price, and are protected by a new three-year warranty for further peace of mind.
