

The freedom to clean anything, anywhere

36V Cordless Pressure Washer

RYOBI®

Ryobi is at the forefront of innovation with the **FIRST** fully cordless & portable 36V Pressure Washer

Ryobi continues to change the game for DIY and garden users and the 36V Brushless Pressure Washer is no different, enabling users to achieve a professional-looking finish at home or on the go.

Whatever you want to clean, wherever it is, you can now operate a high-performance pressure washer without the need for a power outlet, cord or noisy alternative, and without losing any of the performance required to finish the job.

The powerful 36V motor gives you the freedom to clean anything, anywhere thanks to the 36V Lithium+ batteries and the portable water tank. What's more you have zero emissions, less vibration and a much lighter weight tool.

As part of the 36V garden range, choose from up to ten different tools to keep your garden in tip top shape. Mow your lawn, trim hedges, cut wood and tidy up your garden with the same 36V battery.

BRUSHLESS

RPW36120HI BRUSHLESS

Lithium+
36V

This is Ryobi's first ever cordless and portable pressure washer. While the RPW36120HI is small in size, it's big in stature, creating up to 1600w of power thanks to powerful 36V brushless motor. Home users will particularly enjoy being able to achieve up to 120 BAR pressure with a flow of 320 liters per hour, the same as rival products only without the need for electricity. And in creating only 70db at maximum performance, it's quieter than rival brands, too.

The compact design is perfect for using on the move while an incorporated metal frame and aluminum telescoping handle ensure incredible durability.

Everything about the design and ergonomics has been created with the end user in mind. For example, the nozzle boasts five functions in one, from long and short-range detergents, to 0°, 25° and 40° fan settings, for quick and simple switching. Plus all the key accessories are stored on board including the hose trigger gun and spray wand.

Smart features just for you

The RPW36120HI also has a dual-lock battery compartment to ensure greater longevity and runtime, and includes an incorporated 1L detergent tank with on-demand function easily accessible from the spray head.

Furthermore, it is protected from wayward water, while a three-year warranty – featuring the usual benefits users associate with Ryobi products – offers further peace of mind.

Powered by **Lithium+** 36V batteries

The new 36V pressure washer is sold as a bare unit which means you can build on your 36V range of tools without spending more on batteries and chargers with each tool purchase.

Ryobi understands the need for flexibility at affordable prices and that's why we keep expanding our cordless range without the need of new batteries and chargers.

Ryobi's 36V Lithium+ batteries deliver truly petrol equivalent performance to your garden tools. 36V batteries are not only good for your tools but they are good for you too!

No messy petrol or oil spills

No noisy petrol engine

It's environmentally friendly!
